

## **About Advanced IT Concepts (AITC):**

Advanced IT Concepts, Inc. (AITC) is an Information Technology (IT) and Training Solutions Systems Integrator focused on the federal government and the Department of Defense (DoD). With efforts in Germany, Belgium, Korea, Honduras, Saudi Arabia, several other countries, and more than eighteen states and 31 locations within CONUS, AITC offers its customers end-to-end solutions and a truly global reach.

### **How We Help Transitioning Rangers:**

AITC helps to provide Rangers and Ranger Gold Star Families from the 75th Ranger Regiment by partnering with the Three Ranger Foundation to provide them with the additional resources and support they need to successfully transition into civilian life and establish fulfilling careers in technology by providing Cyber and Information Technology (IT) mentorship, jobs, and scholarship opportunities.

**Mentorship Programs:** We have several retired Army Officers, Warrants, and Non-Commissioned Officers in key positions within our company. Our company's Chief of Cyber and Technology has more than 10 years of experience in the 75<sup>th</sup> Ranger Regiment as both a Non-Commissioned Officer and a Senior Warrant Officer. We can help guide Rangers through the job application process, offer career advice, and share personal experiences transitioning from the military to civilian life.

**Education and Training:** AITC can provide Transitioning Rangers with educational opportunities that help them acquire new skills and certifications, such as online courses or boot camps. This helps Rangers to gain relevant knowledge and experience needed build a solid foundation for work in the technology field.

**Providing job opportunities:** With locations around the globe AITC has job opportunities opening all the time. We can also partner with other organizations to help Rangers find jobs after their service.
