

Urban Maintenance INC.

Urban Maintenance Inc is a Seattle based full-service contracting firm specializing in remodeling and ongoing maintenance of residential homes and commercial properties. We provide our customers with high-quality results that add value to their investments.

Looking to hire and train the best.

Hiring diverse, high quality individuals is at the heart of Urban Maintenance Inc (UMI). UMI is looking to give back to the SOF and Veteran community by giving transitioning veterans an opportunity to learn the construction trade from a small team of professionals.

Who are we looking for?

UMI is continuing to grow and is looking for responsible and ambitious employees who value professionalism and are looking for a career in the trade. No prior construction experience is needed; however, our competitive salaries reflect current skill as well as grow with the employee's new skills gained.
